

# Moveable Medicine

-A look at flap books from the John Martin Rare Book Room collection-

Join us to learn the history and importance of flap books throughout medical history. Discover the doctors, authors, and artists that created and shared these beautiful and delicate works. Leaf through, lift the flaps, and look inside these pieces from the collection to feel like a surgeon as you dissect, explore, and discover the beauty of anatomy.

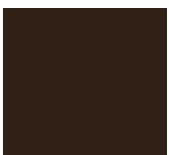

This exhibit features intricate books, fugitive sheets, and manikins from the collection that have been used to teach both medical students and the public about the composition of the human body for centuries!

**Thursday, March 28th**  
**4-7pm**

**John Martin Rare Book Room**

4th floor of the Hardin Library for the Health Sciences

*The University of Iowa Libraries & the University of Iowa History of Medicine Society invite you to their annual Open House in the John Martin Rare Book Room*
